P Shake and Burn!-Shake and Burn! This is the life of agony endured by the sufferer from FE-VER AND AGUE. He wanders like an uncertain shadow, never knowing what moment he may be prostrated, and therefore disinchned to give any serious attention to busiess; He is a burden to himself, and a burden to his sends, who are worn out administering to his wants. This is the condition of thousands in town and country. It is no experention to say that Fever and Acue kills more people than sin't twenty other diseases, in America. For a sure and speedy cure of this terrible affection, we take great pleasure in recommending Du. HOSTETTER'S STOM-ACH BITT'SBS, which have a 'snady achieved a wide repuistion for rapid and powerful effects in renovating the sy-tem prestrated by this disease.

MATRIMONIAL. TO THE LABORS OF THE UNITED STATES:

It has been my good furture to restore to health man housearts of my country-women. My success has excited the malice of the suvious an calous; but their persecutions have served only to extend

and establish my reputation. Showers of grateful offerings have fallen upon my tallowny, from the fair sufferers whom I have relieved. So long as I am held to affectionate ar-

which has rendered me somewhat famous throughout the In regard to the efficacy of the "AMIE DE FEMME," I mored only say, that it as in liquid form, and is exactly such as I have used to my practice in France, for many years, and that it has never failed to scoure a satisfactory result.

The "Amis do Fessime" and mentranton stand in the re-

lation of cames and effect. It is ablied powerful to originate a healthy mentatual flow where it heave has existed, and to restate it where it has been from our cases suppressed. In order to quark against imposition, the wrapper of directions on each hottle of the "A use de Fenanc" will bear my written signature, and both the bottle and enclosing be DR. P. R. RICORD. We looked over our paper and was astonished to find there were no wholesafe dealers in Boots and Shoes in this city. The greeting is what shall we do with the money? We see by our exchanges there are plenty of such dealers in Barhalo, Detroit and, indeed, all the great cities save cleveland. We can refund the money and refer our correspondent to those cities, but we do not like to do it. Notice.-There will be Religious Service at three o'clock this afternoon, at the Synagogue on Huron St.

CLEVELAND AHEAD.-The Forest City has ov er made great pretensions to being in advance of all others upon the Lake Shore. An article which we find in the Leader of yesterday is convincing to us that its claims are founded in justice. It says: "One instance lately came to our knowledge in which three cords of hickory wood, with a part of the shed in which it was stored was stolen." Now that beats us. Wood is often stolen in Toledo but the rogues have mailiness enough to leave iness enough to leav THE BEST ARTIFICIAL HELP TO the use of shed - Toleda Blade.

We presume they are regimes fine.

We presume those rogues find the wood sheds so deeply imbedded in the Manmee mud, as to prevent their being extracted. Just "at the present spaking" Cleveland "Streets are presenting a sublime depth of mud, and we fear our Toledo friends are "gone under."

THE JOHNSON HOUSE .- A correspondent of the Carroll Democrat, who has tested the qualities of friend Surnceo's Jourson House, in this city thus expresses himself in a letter of November

I drop you a brief note from No. S, merely to amounce my safe arrival in the "Forest City," and my cozy location at this "House." This is my first appearance with Mr. Surburg, and I'm very well piessed with the establishment. You are aware that I'm strongly prejudiced against that fulsome coremony—the drilled movements that always attend the routing of our crack hotels; and that I'm old fashioned enough to be satisfied with the utile et dules of every-day life. Here we have every attention and accommodation that a reasonable person can require, without so much fuss and person can require, without so much fuss and feathers we have to pay for at some other houses.
Mr. Surburg, the proprietor, is well adupted to his
position — kind, pleasaut, and attentive to his
guests; and Mr. Huntingdon, the mild, gentleman. v and urbane clerk, is well worthy of the high confidence reposed in him. The corps of attendants are ample and accommodating—unassuming in their position, and realous for the comfort of their their position, and zealous for the comfort of their inmates. It would be a useless piece of information to you to say a word concerning the ample and varied supply presented at the table. Suffice it to say that it still maintains its former character for that variety end abundance, which has already placed the Johnson House at the head of the heap. There's a quietude about it too that to me is enchanting—none of that bustle and hurry which have so much annoyed me at other houses; and if I mistake not very much, this institution for the wayfarer and the business man, will take a deserved precedence over every other one of the city. ved precedence over every other one of the city.

However good a string may be it will preduce no soce unit threates, and the evener the withraiton the better the tone for vibrate evenly, the string should have but two distinct a lone, cliestly to and fro. The hammer strikes on the unit did. (see diagram H.) and the first motion of the string is to seeds from the hammer. In the H. D. & C. plane the second string of the string is to return in a straight direct line to its nating point, and then, if it witness a housand times, its colon is up, down—up, down—ui/pictates.
